**TARGUS, INC. PARTNERS WITH CAVEO TECHNOLOGY TO INTRODUCE
ADVANCED SECURITY SOLUTIONS FOR NOTEBOOK COMPUTERS**

ANAHEIM, Calif. and NEWTON, Mass.—Nov. 5, 2002

Targus, Inc. (<http://www.targus.com>) and Caveo Technology (<http://www.caveo.com>) today announced that they have entered into an agreement to introduce a powerful new security product for notebook and tablet computers. Providing both data protection and theft deterrence in an easy-to-use PC Card format, Caveo's proprietary motion sensing technology will be sold under the Targus brand name. The product will enhance Targus' highly successful DEFCON™ line of notebook security products, and will be available in the United States in January 2003.

Under the terms of the agreement, Targus has exclusive marketing and distribution rights for the Caveo®-enabled ***DEFCON Anti-Theft PC Card*** in the United States. Targus and Caveo have also agreed to explore expanding the partnership in the coming months to additional Caveo-enabled DEFCON products and to bring these products to international markets.

“We are very pleased to partner with Caveo Technology in introducing this product,” said Brett Johnson, President of Targus, Inc. “Targus is the leader in security accessories for notebook computers, providing a full range of solutions, and we know that the combined benefits of data protection and theft deterrence, made possible by Caveo's leading-edge technologies, are extremely important to our customers.”

--More--

“Our partnership with Targus is an exciting development for Caveo,” said David Lee, CEO of Caveo Technology. “With its strengths in marketing and distribution and its leadership position in mobile computing accessories, Targus is ideally positioned to recognize and achieve the potential for advanced technologies such as ours.”

About Targus, Inc.

Targus, Inc. (<http://www.targus.com>) celebrates its 20th anniversary this year as the notebook carrying case industry pioneer. Targus partners with corporations, retailers, and OEMs to provide the best possible protection for notebook PCs. As the leading global supplier of portable solutions, Targus continues to define and shape the market for portable computing accessories with offices on every continent and distributing in over 145 countries.

About Caveo Technology

Caveo Technology (<http://www.caveo.com>) is the leading innovator of products that use advanced motion-sensing technologies to solve important, real-life problems. Its products combine hardware, firmware and software in integrated systems that measure motion, interpret it, make decisions, and take action. Caveo’s development portfolio is aimed at diverse applications where its core technologies offer the potential for enhanced performance, convenience and security.
